

# IceContact™ XTRM

The innovative studdable winter tire, designed with German technology for extreme Canadian winters

**TECHNOLOGIES**

**EFFICIENT GROOVE NETWORK:**

Dominant lateral main grooves for snow traction and slush planing.

**CRUSHED ICE RESERVOIR:**

Crushed ice reservoirs surrounding each stud optimize flow of ice under tread pattern for firm contact between ice and stud during braking.

**STUD RETENTION TECHNOLOGY:**

Maximized connection and interaction between studs and tread pattern.

**CONNECTED CENTRE RIB & SIPING:**

Anti-stone trapping sipes in shoulder and centre blocks.
